# Project Planning Phase Project Planning Template (Product Backlog, Sprint Planning, Stories, Story points)

| Date         | 21 October 2022                              |
|--------------|--|
| Team ID      | PNT2022TMID21122                             |
| Project Name | Estimate The Crop Yield Using Data Analytics |

### **Product Backlog, Sprint Schedule, and Estimation (4 Marks)**

Template to create product backlog and sprint schedule

| Sprint   | Functional Requirement (Epic) | User Story<br>Number | User Story / Task  | Story<br>Points | Priority | Team Members  |
|----------|-------------------------------|----------------------|--|-----------------|----------|---|
| Sprint-1 | Registration                  | USN-1                | As a user, I can register for the application by entering my email, password, and confirming my password | 3               | High     | Nadeeshwaran.A<br>Sanjay R<br>Sharuk B<br>Sugumar R |
|          |                               | USN-2                | As a user, I can register for the application through Gmail  | 2               | Medium   | Nadeeshwaran.A<br>Sanjay R<br>Sharuk B<br>Sugumar R |
|          |                               | USN-3                | As a user, I will receive confirmation email once I have registered for the application                  | 3               | High     | Nadeeshwaran.A<br>Sanjay R<br>Sharuk B<br>Sugumar R |
|          | Login                         | USN-4                | As a user, I can log into the application by entering email & password                                   | 4               | High     | Nadeeshwaran.A<br>Sanjay R<br>Sharuk B<br>Sugumar R |
|          | Working with the Dataset      | USN-5                | To work on the given dataset, Understand the Dataset.  | 4               | High     | Nadeeshwaran.A<br>Sanjay R<br>Sharuk B<br>Sugumar R |
|          |                               | USN-6                | Load the dataset to Cloud platform then Build the required Visualizations.                               | 4               | High     | Nadeeshwaran.A<br>Sanjay R<br>Sharuk B<br>Sugumar R |

| Sprint   | Functional Requirement (Epic) | User Story<br>Number | User Story / Task   |    | Priority | Team Members  |  |
|----------|-------------------------------|----------------------|---|----|----------|---|--|
| Sprint-2 | Data Visualization Charts     | USN-7                | Using the Crop production in Indian dataset, create various graphs and charts to highlight the insights and visualizations.  Build a Visualization to showcase Average Crop Production by | 4  | Medium   | Nadeeshwaran.A<br>Sanjay R                          |  |
|          |                               |                      | Seasons.  |    |          |   |  |
|          |                               |                      | Build a Visualization to showcase the Yearly usage of Area in Crop Production.  | 4  | Medium   | Sharuk B<br>Sugumar R                               |  |
|          |                               |                      | Build a visualization to show case top 10 States in Crop Yield Production by Area.  | 4  | Medium   | Nadeeshwaran.A<br>Sugumar R                         |  |
|          |                               |                      | Build the required Visualization to showcase the Crop Production by State.  | 4  | Medium   | Nadeeshwaran.A                                      |  |
|          |                               |                      | Build Visual analytics to represent the Sates with Seasonal Crop Production using a Text representation.  | 4  | Medium   | Sharuk B<br>Sanjay R                                |  |
| Sprint-3 | Creating The dashboard        | USN-8                | Create the Dashboard by using the created visualizations.   | 20 | High     | Nadeeshwaran.A<br>Sanjay R<br>Sharuk B<br>Sugumar R |  |
| Sprint-4 | Export The Analytics          | USN-9                | Export the created Dashboard  | 20 | High     | Nadeeshwaran.A<br>Sanjay R<br>Sharuk B<br>Sugumar R |  |

#### Project Tracker, Velocity & Burn down Chart: (4 Marks)

| Sprint   | Total Story<br>Points | Duration | Sprint Start Date | Sprint End Date<br>(Planned) | Story Points<br>Completed (as on<br>Planned End Date) | Sprint Release Date (Actual) |
|----------|-----------------------|----------|-------------------|------------------------------|---|------------------------------|
| Sprint-1 | 20                    | 6 Days   | 24 Oct 2022       | 29 Oct 2022                  | 20  | 29 Oct 2022                  |
| Sprint-2 | 20                    | 6 Days   | 31 Oct 2022       | 05 Nov 2022                  | 20  | 05 Nov 2022                  |
| Sprint-3 | 20                    | 6 Days   | 07 Nov 2022       | 12 Nov 2022                  | 20  | 12 Nov 2022                  |
| Sprint-4 | 20                    | 6 Days   | 14 Nov 2022       | 19 Nov 2022                  | 20  | 19 Nov 2022                  |

## Velocity:

We have a 24-day sprint duration, and the velocity of the team is 20 (points per sprint). Let's calculate the team's average velocity (AV) per iteration unit (story points per day)

$$AV = Sprint Duration / Velocity = 20 / 20 = 1$$

#### **Burndown Chart:**

A burn down chart is a graphical representation of work left to do versus time. It is often used in agile software development methodologies such as Scrum. However, burn down charts can be applied to any project containing measurable progress over time.
